REMINDER

U.S. Coast Guard Aux Vessel Examinations at the TYC

Saturday June 21, 2025 from 10:00 to 14:00 - Mark Your Calendars

On Saturday June 21, 2025 from 10:00 (10am) to 14:00(2pm) at the Taunton Yacht Club, the U. S. Coast Guard Auxiliary Flotilla 6-3 out of Onset-Wareham-Marion under the command of Officer Catherine Backstrom will be performing Vessel Examinations.

To sign up contact Howard Bibault with your Name, Boat Name and Length at hsbmdb@aol.com or text 401-265-0207. We need a boat count by June 14th Saturday, so sign up today. The count will allow us to have the proper number of examiners onsite.

There are different safety requirements based on your size boat. U.S. Coast Guard Auxiliary has a check list along with other resources online with all the safety requirements needed to pass a vessel examination. All safety gear listed must be in working condition and within expiration dates including, air horns, fire extinguishers, running lights, flares, and registration documents. Of note, all boats must have PFD's (Personal Flotation Devices) in good condition on board for each person, including the required throwable PFD class IV.

But there are other helpful tips of note not on the checklist as follows:

If you have Inflatable PFD's they must have a full CO2 Cartridge and current expiration "Bobbin Dates". Bobbins expire in three years on average.

Make sure you check in advance the Pyrotechnic Flare expiration dates (42 months from mfg. date) so you have time to purchase new ones if necessary. Note: last year stores were out of stock on this type of flare. Some members upgraded to the new "electronic flares" that do not expire. Make sure you know how to use and activate them. You will be asked to demonstrate the "electronic flares" by the examiner.

A boat may fail the inspection even if the Fire Extinguisher gauges are in the green. The fire extinguishers are considered expired if not within twelve years after the date stamped on the bottom, regardless of what the gauge says. All extinguishers must say U.S.C.G Approved.

The Captain must have the Original Registration or Documentation papers on the boat. A picture of your Registration or Documentation on your phone or a photo copy DOES NOT replace the actual documents that need to be kept on the vessel.

All vessels that pass the vessel examination will receive a written report and a 2025 U.S. Coast Guard Auxiliary sticker to be placed on the vessels port windshield.
